-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of the Claims

Claims 1-8 and 26-34 are pending.

This is in response to the office action mailed on 06/22/09.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 08/24/09 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 and 26-34 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent number 5,312,833 and citing Vadhan-Raj et al., as supplementary evidence of what '833' discloses.

'833' discloses compounds within the instant scope for uses associated with increasing platelets in humans in need thereof. See example discussed in the previous 102 rejection mailed on 06/22/09. '833' additionally, describes the same uses as

claimed herein including increasing platelets in humans. While increasing platelets in humans is not explicitly described by '833', Vadhan-Raj is applied to show that compounds that can "**stimulate thrombopoietin**" are implicated for increasing platelet count in humans. See the background of the reference. Note that "extrinsic evidence" is permitted to be considered in anticipations for explaining (or evidencing) what the meaning of the reference would have meant to those skilled in the art at the time the invention was made. Note *Ciba-Geigy v. Alza* 37 U.S.P.Q. 2d. 1337. Thus, while '833' does not mention the claimed use, following the disclosure of '833' one would be administering to a host an instant drug that increases platelet count and thus inherently performs the **same function** as claimed herein to treat diseases described in the art and particularly recited herein. See *Ex parte Novitski* 26 U.S.P.Q. 2d. 1389 as well as the more recent decision, *Integra Life Sciences v. Merck* 50 U.S.P.Q. 2d. 1846.
